

WARRIOR WALL

This 60 foot sport crag is one of the best in the Camp Hale area, Warrior's Tears is probably the nicest and most popular route.

Head north out of Leadville on 24. After 16.5 miles or about 24 minutes you will see Nova Guides on your right. Take your next right and then another right to follow the river. After a couple of minutes you will see the, south facing, cliff on your left. Take your next left and park. The approach is obvious from here.

The first bolt is a ways up, one of the bolts is ancient. Finishes in an unpleasant grove. Not recommended.
